

How To Record Treatment Procedures

You can use NLMD-LT to record animals being treated with a veterinary procedure e.g. Foot Trimming.

After logging into NLMD-LT, under the “Manage Animals” menu option, select “Administer Treatment” > “Procedure”

TREATMENT ANIMALS COMPLETE

Treatment Location & Species

Treatment Holding CPH*

Species*

First select the species and holding CPH where the treatment was done.

Your next need to select the treatment date and the name of the procedure the animals were treated for. You can either select the name from the list or type in some text. You can then optionally enter the name of the person who administered it and a reason for treatment.

Treatment Details

Treatment date*

Procedure name*

Administered by

Condition / reason for treatment

Click next.

You now need to enter the details of the animals being treated.

Individual Identified Animals

Enter list of individual identifiers and/or Select from list of know identifiers on holding

Identifier	All <input type="checkbox"/>
UK0123456 00001	<input type="checkbox"/>
UK0123456 00002	<input type="checkbox"/>
UK0123456 00003	<input type="checkbox"/>
UK0123456 00101	<input type="checkbox"/>
UK0123456 00102	<input type="checkbox"/>
UK0123456 00103	<input type="checkbox"/>

1 2

Individual identified animals can be entered in the text box provided, one identifier per line, you can also copy and paste the contents of a text file downloaded from your EID reader. Alternatively, individual animals can be selected from the list of known animals on your holding by checking the tick box next to the animal’s identifier.

You can also add batch details for animals that are not individually identified. To record batch details, enter the batch number, the total animals and then click the “Add” button. To remove a batch, click the “Delete” button next to the batch details to delete.

Batch Identified Animals

If the animals contain slaughter tags, enter the batch numbers of the animals ?

Batch Number	Animal Total	
<input type="text" value="UK123456"/>	<input type="text"/>	<input type="button" value="Add batch"/>
Batch Number	Animal Total	
UK123456	15	<input type="button" value="Remove batch from list"/>

When all animals have been added and you are happy with the treatment, click the “Finished” button to submit the treatment procedure request.

Details of the treatment will be displayed in your medicine book, to view this select Reports > Medicine Administration & Treatments.
