How To Administer Medicines To Animals

You can use NLMD-LT to record animals being treated with a medicine for your online medicine book.

After logging into NLMD-LT, under the "Manage Animals" menu option, select "Administer Treatment" > "Medicine"

First select the species, holding CPH where the treatment was done and the treatment start and date.

You next need to select the medicine being administered. If you use the NLMD-LT medicine purchase / disposal pages select "Medicine from stock". This will then display a list of medicines in stock that are suitable for the selected species.

Otherwise select "non stock medicine", which will allow you to select any medicine from the NLMD-LT standard list. This list is populated by a recent download from the Veterinary Medicines Directorate (VMD), meaning only medicines appropriate for the selected species are displayed.

You then need to select the dosage per animal and can optionally enter the name of the person who administered the medicine and the reason for treatment

Click next.

Treatment Details

Total dosage per animal* 100 Millilitres

Administered by Me

Condition / reason for treatment Lameness

Next

You now need to enter the details of the animals being treated.

Individual Identified Animals

Enter list of individual identifiers and/or Select from list of know identifiers on holding

Identifier	All ☐
UK0123456 00001	☐
UK0123456 00002	☐
UK0123456 00003	☐
UK0123456 00101	☐
UK0123456 00102	☐
UK0123456 00103	☐

1 2

Individual identified animals can be entered in the text box provided, one identifier per line, you can also copy and paste the contents of a text file downloaded from your EID reader. Alternatively, individual animals can be selected from the list of known animals on your holding by checking the tick box next to the animal's identifier.

You can also add batch details for animals that are not individually identified. To record batch details, enter the batch number, the total animals and then click the "Add" button. To remove a batch, click the "Delete" button next to the batch details to delete.

Batch Identified Animals

If the animals contain slaughter tags, enter the batch numbers of the animals

Batch Number   Animal Total

UK123456   Add batch

Batch Number	Animal Total	
UK123456	15	Remove batch from list

When all animals have been added and you are happy with the treatment, click the "Finished" button to submit the treatment request.

Details of the treatment will be displayed in your medicine book, to view this select Reports > Medicine Administration & Treatments.
